Job Description

We are looking for a full-time surveyor to expand our current survey team and provide additional services for clients. This position is open immediately for the ideal candidate and is an open-ended hire that could be made across a variety of background experience levels. This position will fill a need in our Civil Services division to work with an established group of talented surveyors and civil engineers and designers.

This position will serve under the guidance of an accomplished Professional Land Surveyor and Engineer licensed in the State of Iowa. You will work collaboratively with survey peers to provide an additional survey team as well as work alongside them on various efforts. This opportunity provides for mentorship and instruction, where necessary, of many of the necessary skills. Prior land survey experience, general field experience, Civil3D Drafting, or Construction Observation are all a significant plus. Candidates should highlight their experience in these areas if they have it. In this role you will work with our senior surveyor as well as accredited Crew Chiefs to complete field and related office tasks. Ability to carry field supplies, drive hubs/lath with hammer and perform under construction site conditions will all be part of the job. You will work closely with engineers, clients, contractors, and our Civil Services team to provide fully integrated survey to the team. Expected hours/week are 40-60 from March-November. 40/week during other times of year.

Primary roles for this position will be:

- Survey Fieldwork
- Boundary surveys
- Topographic surveys
- Construction Site Visits
- GPS and Total Station operation
- Creation of Staking and Layout Drawings
- Preliminary and Final Platting
- Residential site design
- Creation of Topo drawings
- Additional Field Tasks

Axiom Consultants is a three-time winner of the Best Engineering Company of the Corridor (Iowa City – Cedar Rapids metro area) which comprises nearly 500,000 residents. Our company provides an incredibly unique work environment and a rare set of services for a smaller company. We focus on service for our clients and provide incredible communication, responsiveness, and efficiency that we have become known for across the area. Our small, multi-disciplinary teams tackle projects both large and small for a diverse range of clients. Candidates will find a fun work environment with a really great group of people who are all truly friends and family. Being able to work with engineers of multiple disciplines together and have all disciplines in-house creates an incredibly fun and supportive environment where employees can thrive.

Required Education and Skills

High School Diploma Required.

- Valid Iowa driver's license
- Ability and desire to work primarily outside
- Ability to interface with clients in professional manner
- Motivated problem solver
- Collaborative and professional attitude
- Strong professional references
- Excellent speaking and writing skills
- Attention to detail and note taking
- Meticulous

Preferred Education and Skills

Associates or Bachelor's degree in related field preferred.

- Professional Land Surveyor (PLS) Licensure
- Certified Survey Technician (CST)
- Platting experience
- Construction inspection or observation
- Familiarity with point clouds
- Trimble survey equipment experience
- Autodesk Autocad Civil3D experience
- Boundary survey experience
- Construction staking experience
- 3D Scanning experience
